Presidents Plug A Small group of us traveled to Toledo Ohio to attend the annual RC show. This was my first time going and I was impressed with the size of the show. There were hundreds of vendors representing all facets of the RC hobby. I walked around the show three different times and each time saw something different. Once back at the motel and talking others I realized I had missed a lot things. Everyone should go to this show at least once in there life. It is an awe some show.

We also visited the Air Force Museum in Dayton Ohio on the way up to Toledo. It to was impressive. I will try to include pictures of the trip as I gather them from people who made the trip or off the web.
This meeting's Show and Tell will have some interesting projects.
See you all at the meeting next Thursday April 17, 2003.

Airplane Cleaner:

5 cups water
1/2 cup of ammonia
1 cup rubbing alcohol
1 oz. of DAWN dish detergent

Mix all ingredients in a clean milk jug, pour enough in a small spray bottle for field use. This solution cuts thru the oil buildup on the underside of your plane and leaves it squeaky clean.
