Presidents Plug

Happy New Year!!! Another year of wonderful flying awaits us. I hope one of your New Years resolutions is to get out more this year. I hope we can have more activities at the field this year. We did not have a regular business meeting in December but had a wonderful Christmas Party as detailed in the Secretary's Minutes. I look forward to the next year and a lot of flying. If you haven't renewed your dues please do so before flying at the field this year. I will see you all at the Meeting.

Before getting into notes from the Secretary it should be noted that Ed Henry a long time member of this Club is in the Hospital recovering from a broken leg. For details see Christy Bauer.

Notes from the Secretary for December 19, 2002

Our last meeting of the year was replaced by our annual Christmas Party. There were 33 people that showed up for our Christmas Party. It looked like everyone enjoyed the Pizza, drinks and desserts that were served while we listened to Christmas music.

Many members and guests won prizes donated by Wayne McCosker, but the "big winners" were the Vitense Family. It pays to have a big family! Congratulations!! The 50/50 drawing took in \$32.00 and Sam Piazza was the lucky winner. The two lucky guys who won \$10.00 gift certificates were Vince Russo and John Bolesta. A radio (donated by Wayne McCosker) was auctioned off for \$70.00 which the proceeds went to the Club. A big thanks goes to the final bidder Ron Shippers.

We didn't forget about those lovely ladies either. Kim Vitense and Ginny Grossman each won \$15.00. This was given to them with one stipulation, that it be spent on themselves and not their husbands or the Hobby.

We think a good time was had by all who attended. We would like to thank the following for their contributions to the Party:

Helen Rawlings - 50/50 Chances	Sharon Russo - Homemade Cookies
Francis Jones - Attendance Sign in	Wayne McCosker - Gifts
Ron & Pam Babish - Pick up Pizza's	Al & Ginny Grossman - Music

Thanks again and see you in 2003

Christy

Bob

Technotes: Telephone Technology (via retired ATT/Lucent!)

After digging to a depth of 100m last year, Russian scientists found traces of copper wiring dating back 1000 years, and came to the conclusion that their ancestors already had a telephone network one thousand years ago. So as not to be outdone, in the weeks that followed, American scientists dug 200m, and headlines in the US newspapers read: "US scientists have found traces of 2000 year old optical fibers, and have concluded that their ancestors already had advanced high-tech digital telephone 1000 years earlier than the Russians." One week later, the Irish press reported the following: "After digging as deep as 500m, Irish scientists have found absolutely nothing. They have concluded that 5000 years ago, their ancestors were already using mobile phones."

Next Meeting
