Happy new year to all!

For starters, a big thanks to everyone who attended our Christmas party and enjoyed good friends, good times and good food. Please plan on attending the January meeting as there will be a lot going on. We will begin collecting dues for the 2006 season, please bring a completed application (downloadable from the website) along with a check made

out to the propnuts. We will also inform everyone on the latest developments in regards to the flying site situation. Rumor has it that Bob Buss will be bringing his still-in-construction, scratch built, giant scale P-38 Lightning. We will also be looking for volunteers to fill an open Board of Directors position. I wanted to share with you all as well a Great Website:

<http://www.airfieldmodels.com>, this gentleman builds some incredible models and has a wealth of modeling information on his site.

See you at the meeting!

**St. Peters
Senior Citizens Center**

Open Topics

See You There!

Meeting

There was no business Meeting as the Annual Christmas Party was held.

Christmas Party

There was 40 or 50 members and guests in attendance for our annual Christmas Party. Mostaccioli, Pasta Con Broccoli, salad, bread, and desserts were served. A special thanks to all the people who helped in the various ways to make this annual event another great success. Without these great volunteers we could not enjoy these events. In the coming year don't be afraid to step up and volunteer to help at Club events or plan an event of your own. Be creative.

Everyone one in attendance received a gift of some sort. A good time was had by all attendees.

The New Year

The New Year is here and I hope everyone will have a safe and successful flying year.

Please remember we have a lot of new members, so please introduce yourself if you don't recognize someone and always lend a helping hand if you notice someone needs help.

Just a reminderSafety first, fun is second.

Christmas Party pictures are attached. Bigger and higher quality are available from our web site:

Airplane Cleaner:

5 cups water
1/2 cup of ammonia
1 cup rubbing alcohol
1 oz. of **DAWN** dish
detergent

Mix all ingredients in a clean milk jug, pour enough in a small spray bottle for field use. This solution cuts thru the oil buildup on the underside of your plane and leaves it squeaky clean.

Caution: Dawn seems to be the only dish detergent that cuts all the oils and doesn't leave a residue on the plane.

Thoughts for the Day

The Swap Shop

Dan Dierking Sale FOR SALE: Goldberg Sukhoi - \$600

This plane is absolutely gorgeous and ready to fly after you add your receiver. The engine is a YS 140 Sport, the servos are JR 4721 for rudder and elevators, JR 531's for ailerons and JR 811 digital for throttle. The Sukhoi flies great precision aerobatics, has large control surfaces for 3D and has a super light wing loading so it slows down to a crawl for landing. This plane is available for local sale only and you may contact me to see it before you buy. I can also sell the JR R700 receiver in it for an additional \$50. I also purchased a Mc Daniel onboard glow driver, but never installed it because the engine runs so well. I will sell it for \$40, what I paid for it. Local pickup only. I'm selling to pay for my 30% project.

Call Dan @ 636-236-2693 for more info.

Paul Schamel's Sale
Everything must go!! Nothing held back!!!
