President's Plug

By
John Bolesta

I hope you will all be able to attend our April meeting which is very early in the month. We should have a little demonstration on how to use your computer's printer to make some of the old style decals that get applied with water. These could be handy for markings, labeling and insignias for our models. Also, be

aware that Bob Buss has installed the "flight of the week" tally sheet. Be sure to sign in and check off your weekly flights as the season progresses. Thanks to Vince and Christie for the field maintenance. It looks good and will improve as we are able to fill in some of the low spots in the pits. Also, we have had a request to have a volunteer speak at a small special school district class in St. Peters that is now studying flight. Give me a call if you would like to do this. See you at the meeting.

Next Meeting

Thursday

March 18, 2004

7:00 PM

St. Peters
Senior Citizens Center

Open Topics

See You There!
