Grass is growing. The tree is cut down. The ROCKS are gone. The new field is well on its way to being operational. A big thank you to all who attended the field clean up days last weekend. I was truly amazed at the amount of work that got done and the turn out we had. As usual, we'll fill you all in on the latest field developments.

Bob Buss is creating a great new website that blows our old site out of the water, it should be up and running shortly. I'd like for Bob to fill us in on

### Airplane Cleaner:

5 cups water  
1/2 cup of ammonia  
1 cup rubbing alcohol  
1 oz. of **DAWN** dish detergent

Mix all ingredients in a clean milk jug, pour enough in a small spray bottle for field use. This solution cuts thru the oil buildup on the underside of your plane and leaves it squeaky clean.

**Caution:** Dawn seems to be the only dish detergent that cuts all the oils and doesn't leave a residue on the plane.
