### President's Plug

By  
Doug Bruening

The Club Picnic was a success with a beautiful day and a lot of flying. Everyone enjoyed a good meal as well as the weather. Thanks to everyone involved in putting on a great picnic.

The Club Officer's terms are coming to an end. Please be ready to nominate someone or volunteer for a position at our next meeting. Hope to see you at the meeting.

**Hope see you at the meeting!**

## MARK TWAIN HOBBY

2793 West Clay Street  
St. Charles, Missouri 63376  
PHONE (636) 946-2816  
[www.hobby1.com](http://www.hobby1.com)

### Airplane Cleaner:

5 cups water  
1/2 cup of ammonia  
1 cup rubbing alcohol  
1 oz. of **DAWN** dish detergent

Mix all ingredients in a clean milk jug, pour enough in a small spray bottle for field use. This solution cuts thru the oil buildup on the underside of your plane and leaves it squeaky clean.

**Caution:** Dawn seems to be the only dish detergent that cuts all the oils and doesn't leave a residue on the plane.

## An Interesting Historical Fact

We should remember the origins, history and tradition of the uniforms worn with pride by militaries around the world.

For example, a long time ago, Britain and France were at war. During one battle, the French captured an English colonel. Taking him to their headquarters, the French general began to question him.

Finally, as an afterthought, the French general asked, "Why do you English officers all wear red coats? Don't you know the red material makes you easier targets for us to shoot at?"

In his bland English way, the colonel informed the general that the reason English officers wear red coats is so that if they are shot, the blood won't show and the men they are leading won't panic.

And that is why, from that day to this, all French Army officers wear brown pants.

---

## This should be etched in stone some place.

In case we find ourselves starting to believe all the anti-American sentiment and negativity, we should remember England 's Prime Minister Tony Blair's words during a recent interview.

When asked by one of his Parliament members why he believes so much in America , he said:

"A simple way to take measure of a country is to look at how many want in ... and how many want out."
