### Airplane Cleaner:

5 cups water  
1/2 cup of ammonia  
1 cup rubbing alcohol  
1 oz. of **DAWN** dish detergent

Mix all ingredients in a clean milk jug, pour enough in a small spray bottle for field use. This solution cuts thru the oil buildup on the underside of your plane and leaves it squeaky clean.

Caution: Dawn seems to be the only dish detergent that cuts all the oils and doesn't leave a residue on the plane.

Nominations For 2007 Board Members are as follows:

Leo Jones

John Rawlings

Al Rivera

Bob Buss will remain on the Board

**Appreciate every single thing you have, especially your friends...  
Life is too short and friends are too few.**

On the lighter side

My mind not only wanders, it sometimes leaves completely.

The nice part about living in a small town; is when you don't know what your doing someone else always does.
